Summary Section

Investment Objective

The Dearborn Partners Rising Dividend Fund (the “Fund”) seeks current income, rising income over time, and long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on Class A shares if you or your family invest, or agree to invest in the future, at least \$25,000 in the Fund’s Class A shares. Certain financial intermediaries may also offer variations in Fund sales charges to their customers as described in Appendix A to the Prospectus. More information about these and other discounts is available from your financial professional and under “Shareholder Information – Class A Sales Charge Reductions and Waivers” beginning on page 14 of this Prospectus, in Appendix A to the Prospectus, and under “Additional Purchase and Redemption Information – Sales Charges on Class A Shares” beginning on page 32 of the Fund’s Statement of Additional Information (“SAI”).

| Shareholder Fees <i>(fees paid directly from your investment)</i> | Class A | Class C | Class I |
|---|----------------------|----------------|----------------|
| Maximum Sales Charge (Load) Imposed on Purchases <i>(as a percentage of offering price)</i> | 5.00% | None | None |
| Maximum Deferred Sales Charge (Load) <i>(as a percentage of purchases that are redeemed within 12 months of purchase)</i> | 1.00% ⁽¹⁾ | 1.00% | None |
| Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i> | | | |
| Management Fees | 0.85% | 0.85% | 0.85% |
| Distribution and Service (12b-1) Fees | 0.25% | 1.00% | None |
| Other Expenses | 0.26% | 0.26% | 0.26% |
| Total Annual Fund Operating Expenses | 1.36% | 2.11% | 1.11% |
| Less: Fee Waiver and/or Expense Reimbursement | -0.01% | -0.01% | -0.01% |
| Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ⁽²⁾⁽³⁾ | 1.35% | 2.10% | 1.10% |

⁽¹⁾ The Maximum Deferred Sales Charge on Class A shares is applied only to purchases of \$500,000 or more that are redeemed within 12 months of purchase.

⁽²⁾ Pursuant to an operating expense limitation agreement between Dearborn Partners, L.L.C. (the “Adviser”), the Fund’s investment adviser, and the Fund, the Adviser has agreed to waive its management fees and/or reimburse Fund expenses to ensure that Total Annual Fund Operating Expenses (exclusive of front-end or contingent deferred loads, Rule 12b-1 fees, shareholder servicing plan fees, taxes, leverage expenses (i.e., any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest expenses on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation (collectively “Excluded Expenses”) do not exceed 1.10% of the Fund’s average daily net assets, through at least June 28, 2019 and subject thereafter to annual re-approval of the agreement by the Trust’s Board of Trustees (the “Board of Trustees”). To the extent the Fund incurs Excluded Expenses, Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement may be greater than 1.10%. The operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

⁽³⁾ Please note that Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement in the table above do not correlate to the ratio of Expenses to Average Net Assets After Waivers and Reimbursement of Expenses found within the “Financial Highlights” section of this prospectus as, effective May 1, 2017, the expense cap was reduced by 0.05% so that Total Annual Fund Operating Expenses, exclusive of Excluded Expenses, will not exceed 1.10% of the average daily net assets.

Example

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation discussed in the table above is reflected only through June 28, 2019. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

If shares are redeemed:

| <u>Share Class</u> | <u>One Year</u> | <u>Three Years</u> | <u>Five Years</u> | <u>Ten Years</u> |
|--|-----------------|--------------------|-------------------|------------------|
| Class A | \$631 | \$908 | \$1,207 | \$2,052 |
| Class C | \$313 | \$660 | \$1,133 | \$2,441 |
| Class I | \$112 | \$352 | \$611 | \$1,351 |
| If you did not redeem your Class C shares: | | | | |
| Class C | \$213 | \$660 | \$1,133 | \$2,441 |

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may generate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These transaction costs and potentially higher taxes, which are not reflected in the annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 12.05% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of its net assets in the equity securities of companies that pay current dividends and that the Fund's portfolio managers believe have the potential to increase their dividends with regularity.

Equity securities in which the Fund invests consist primarily of common stocks, but may also include master limited partnerships ("MLPs") and real estate investment trusts ("REITs"). MLPs are businesses organized as limited partnerships that trade their proportionate shares of the partnership (units) on a public exchange. A REIT is a security of a company that invests in real estate, either through real estate property, mortgages and similar real estate investments, or all of the foregoing. The Fund will invest primarily in securities of U.S. companies, but may invest up to 20% of its net assets in securities of "foreign issuers." "Foreign issuers" means non-U.S. companies: (a) whose securities are traded on a U.S. exchange, and denominated in U.S. dollars, in the form of American Depositary Receipts ("ADRs"); or (b) who are organized and headquartered outside the United States but whose securities are publicly traded on a U.S. exchange.

The Fund invests in companies in numerous market sectors and with various market capitalizations. The portfolio managers expect to invest mainly in large-capitalization companies (those with market capitalizations of \$10 billion and higher), but may also invest in medium-capitalization companies (market capitalizations of \$2 billion to \$10 billion) and small-capitalization companies (market capitalization of less than \$2 billion). The Fund will generally remain fully invested, and under normal market conditions, the Fund's portfolio will consist of approximately 30 to 80 companies.

In selecting investments for the Fund's portfolio the Adviser utilizes a bottom-up approach, focusing on fundamental qualities of individual companies. The Adviser believes that consistent earnings growth drives consistent dividend growth. Over the long run, the Adviser believes consistent earnings growth will help the price performance of a stock. Thus, the Fund's portfolio managers begin with companies

with well-established records of consistent earnings and dividend growth. Income created by rising common stock dividends is an important consideration in selecting the Fund's investments.

The Fund's portfolio managers will generally sell a security when they believe a company's dividend growth potential is in jeopardy, when a company's fundamentals are likely to deteriorate, when a company's valuation becomes excessive, when a better investment opportunity becomes available or in order to meet shareholder redemptions.

Principal Risks

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose money by investing in the Fund.** The principal risks of investing in the Fund are:

- *General Market Risk.* Certain securities selected for the Fund's portfolio may be worth less than the price originally paid for them, or less than they were worth at an earlier time.
- *Strategy Risk.* There is no guarantee that the issuers of the stocks held by the Fund will declare dividends in the future, or that if dividends are declared, they will remain at their current levels or increase over time. The Fund's performance during a broad market advance could suffer because dividend paying stocks may not experience the same capital appreciation as non-dividend paying stocks. Depending upon market conditions, dividend paying stocks that meet the Fund's investment criteria may not be widely available, making it difficult for the Adviser to replace stocks that have decreased or eliminated dividend payments.
- *Management Risk.* The Adviser's judgments about the attractiveness, value and potential appreciation of the Fund's investments may prove to be incorrect and the investment strategy employed by the Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other similar investment vehicles having a similar investment strategy.
- *Common Stock Risk.* Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change.
- *Large-Capitalization Company Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- *Small- and Medium-Capitalization Companies Risk.* Investing in securities of small- and medium-capitalization companies may involve greater volatility than investing in larger and more established companies because small- and medium-capitalization companies can be subject to more abrupt or erratic share price changes than larger, more established companies.
- *REIT Risk.* Adverse changes in general economic and local market conditions, supply or demand for similar or competing properties, taxes, governmental regulations or interest rates, as well as the risks associated with improving and operating property, may decrease the value of REITs in which the Fund may invest. Additionally, there is always a risk that a REIT will fail to qualify for favorable tax treatment.
- *MLP Risk.* MLP investment returns are enhanced during periods of declining or low interest rates and tend to be negatively influenced when interest rates are rising. In addition, most MLPs are fairly leveraged and typically carry a portion of a "floating" rate debt. As such, a significant upward swing in interest rates would also drive interest expense higher. Furthermore, most MLPs grow by acquisitions partly financed by debt, and higher interest rates could make it more

difficult to make acquisitions. MLP investments also entail many of the general tax risks of investing in a partnership. Limited partners in a MLP typically have limited control and limited rights to vote on matters affecting the partnership. Additionally, there is always the risk that a MLP will fail to qualify for favorable tax treatment.

- *Foreign Securities and ADR Risk.* The Fund’s investments in securities of foreign companies, including in the form of ADRs, are subject to risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. ADRs are securities representing the securities of foreign issuers. A purchaser of unsponsored depositary receipts may not have unlimited voting rights and may not receive as much information about the issuer of the underlying securities as with a sponsored depositary receipt. Income earned on foreign stocks and securities may be subject to foreign withholding taxes.
- *Cybersecurity Risk.* With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund’s ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.

Performance

The performance information demonstrates the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for the one-year and since inception periods compare with those of a broad measure of market performance. Remember, the Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.dearbornfunds.com or by calling the Fund toll-free at (888) 983-3380.

⁽¹⁾ The returns shown in the bar chart are for Class I shares. The performance of Class A and Class C shares will differ due to differences in expenses.

The Fund’s calendar year-to-date return as of March 31, 2018 was -2.41%. During the period shown in the bar chart, the best performance for a quarter was 6.83% (for the quarter ended March 31, 2016). The worst performance was -4.82% (for the quarter ended September 30, 2015).

*Average Annual Total Returns
(for the Periods Ended December 31, 2017)*

| | <u>One Year</u> | <u>Since Inception (4/10/13)</u> |
|---|-----------------|--------------------------------------|
| Class I Shares | | |
| Return Before Taxes | 15.03% | 9.59% |
| Return After Taxes on Distributions | 14.54% | 9.21% |
| Return After Taxes on Distributions and Sale of Fund Shares | 8.88% | 7.52% |
| Class A Shares | | |
| Return Before Taxes | 9.01% | 8.12% |
| Class C Shares | | |
| Return Before Taxes | 12.88% | 8.49% |
| S&P 500[®] Total Return Index | 21.83% | 14.01% |
| (reflects no deduction for fees, expenses or taxes) | | |

After-tax returns are shown for Class I shares only and will vary for Class A shares and Class C shares. After-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are calculated using the historical highest individual federal marginal income tax rates in effect and do not reflect the effect of state and local taxes. The after-tax returns shown are not relevant to those investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts ("IRAs").

Management

Investment Adviser

Dearborn Partners, L.L.C. is the Fund's investment adviser.

Portfolio Managers

Carol M. Lippman, CFA, and Michael B. Andelman, each a Portfolio Manager and Managing Director of the Adviser, have served as the portfolio managers of the Fund since it commenced operations in April, 2013.

Purchase and Sale of Fund Shares

You may purchase or redeem shares (share purchases or redemptions) via written request by mail (Dearborn Partners Rising Dividend Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701), by wire transaction, or by contacting the Fund by telephone at (888) 983-3380, on any day the New York Stock Exchange ("NYSE") is open for trading. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. Minimum initial and subsequent investment amounts are shown below.

| <u>Minimum Investment Amounts</u> | <u>Class A</u> | <u>Class C</u> | <u>Class I</u> |
|-----------------------------------|----------------|----------------|----------------|
| Minimum Initial Investment | \$5,000 | \$5,000 | \$500,000 |
| Minimum Subsequent Investment | \$500 | \$500 | \$500 |
| Automatic Investment Plan | \$100 | \$100 | \$100 |

Tax Information

The Fund's distributions will be taxed as ordinary income or long-term capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account ("IRA"). You may be taxed later upon withdrawal of monies from such tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer, or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your adviser or visit your financial intermediary's website for more information.

Investment Strategies, Risks and Disclosure of Portfolio Holdings

Investment Objective

The Fund seeks current income, rising income over time, and long-term capital appreciation.

Change in Investment Objective. The Fund's investment objective described in this Prospectus may be changed without the approval of the Fund's shareholders upon 60 days' prior written notice to shareholders. However, the Fund will not make any change in its investment policy of investing at least 80% of net assets in assets suggested by the Fund's name without first changing the Fund's name and providing shareholders with at least 60 days' prior written notice.

Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of its net assets in the equity securities of companies that pay current dividends and that the Fund's portfolio managers believe have the potential to increase their dividends with regularity. Equity securities in which the Fund invests consist primarily of common stocks, but may also include MLPs and REITs. The Fund will invest primarily in securities of U.S. companies, but may invest up to 20% of its net assets in securities of "foreign issuers." "Foreign issuers" means non-U.S. companies: (a) whose securities are traded on a U.S. exchange, and denominated in U.S. dollars, in the form of ADRs; or (b) who are organized and headquartered outside the United States but whose securities are publicly traded on a U.S. exchange.

The Fund invests in companies in numerous market sectors and with various market capitalizations. The portfolio managers expect to invest mainly in large-capitalization companies (those with market capitalizations of \$10 billion and higher), but may also invest in medium-capitalization companies (market capitalizations of \$2 billion to \$10 billion) and small-capitalization companies (market capitalization of less than \$2 billion). The Fund will generally remain fully invested, and under normal market conditions, the Fund's portfolio will consist of approximately 30 to 80 companies.

In selecting investments for the Fund's portfolio, the Adviser utilizes a bottom-up approach, focusing on fundamental qualities of individual companies. The Adviser believes that consistent earnings growth drives consistent dividend growth. Over the long run, the Adviser believes consistent earnings growth will help the price performance of a stock. Thus, the Fund's portfolio managers begin with companies with well-established records of consistent earnings and dividend growth. Income created by rising common stock dividends is an important consideration in selecting the Fund's investments.

The Fund's portfolio managers select stocks by seeking companies with strong earnings growth potential, and generally place special emphasis on those companies they think show:

- solid financial condition, including very strong balance sheets;
- investment-grade debt (if they have debt);
- dividends well-covered by cash flow and earnings;
- operations in generally defensive businesses; and
- the potential to raise dividends consistently year after year.

The Fund's portfolio managers will generally sell a security when they believe a company's dividend growth potential is in jeopardy, when a company's fundamentals are likely to deteriorate, when a company's valuation becomes excessive, when a better investment opportunity becomes available or in order to meet shareholder redemptions.

Temporary Strategies: Cash or Similar Investments. For temporary defensive purposes, the Adviser may invest up to 100% of the Fund's total assets in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of other mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. Taking a temporary defensive position may result in the Fund not achieving its investment objective. Furthermore, to the extent that the Fund invests in money market mutual funds for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market funds' management fees and operational expenses.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose money by investing in the Fund.** The principal risks of investing in the Fund are:

General Market Risk. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, or sector of the economy or the market as a whole. Global economies and financial markets are increasingly interconnected, which increases the probabilities that conditions in one country or region might adversely impact issues in a different country or region. In some cases, the stock prices of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial condition or prospects of that company. As a result of this volatility, many of the following risks associated with an investment in a Fund may be increased. Continuing market problems may have adverse effects on the Fund.

Strategy Risk. There is no guarantee that the issuers of the stocks held by the Fund will declare dividends in the future, or that if dividends are declared, they will remain at their current levels or increase over time. The Fund's performance during a broad market advance could suffer because dividend paying stocks may not experience the same capital appreciation as non-dividend paying stocks. Depending upon market conditions, dividend paying stocks that meet the Fund's investment criteria may not be widely available, making it difficult for the Adviser to replace stocks that have decreased or eliminated dividend payments.

Management Risk. The ability of the Fund to meet its investment objective is directly related to the Adviser's investment strategy for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Adviser's research, analysis and allocation among portfolio securities. If the Adviser's investment strategy does not produce the result sought by the strategy, the value of your investment could be diminished or even lost entirely.

Common Stock Risk. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer because common stockholders, or holders of equivalent interests, generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stockholders, bondholders and other creditors of such issuers.

Large-Capitalization Company Risk. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Small- and Medium-Capitalization Companies Risk. Investing in securities of small- and medium-capitalization companies may involve greater volatility than investing in larger and more established companies because small and medium capitalization companies can be subject to more abrupt or erratic share price changes than larger, more established companies. Small- and medium-capitalization companies may have limited product lines, markets or financial resources and their management may be dependent on a limited number of key individuals. Securities of those companies may have limited market liquidity and their prices may be more volatile.

REIT Risk. The Fund may invest indirectly in real estate by investing in REITs. These investments are subject to numerous risks, including, but not limited to, adverse changes in general economic and local market conditions, adverse developments in employment or local economic performance, changes in supply or demand for similar or competing properties, unfavorable changes in applicable taxes, governmental regulations or interest rates, and lack of available financing. The REITs in which the Fund invests may improve or operate real properties as well as buying and selling them, and accordingly those investments are also subject to risks associated with improving and operating property, such as the inability to maintain rental rates and occupancy levels in highly competitive markets, unavailability or increases in the cost of insurance, unexpected increases in the costs of refurbishment and improvements, unfavorable rent control laws and costs of complying with environmental regulations. If a REIT fails to qualify as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”), then the REIT could become taxable as a corporation, which would likely have an adverse impact on the Fund’s investment. The Fund will generally have no control over the operations and policies of a REIT, and the Fund generally will have no ability to cause a REIT to take the actions necessary to qualify as a REIT.

MLP Risk. Limited partners in a MLP typically have limited control and limited rights to vote on matters affecting the partnership. There also are certain tax risks associated with the MLPs in which the Fund may invest, including the possibility that the Internal Revenue Service (the “IRS”) could challenge the treatment for federal income tax purposes of the MLPs in which the Fund invests. The tax risks of investing in a MLP are generally those inherent in investing in a partnership as compared to a corporation. For example, the cash distributions received by the Fund from an MLP may not correspond to the amount of taxable income allocated to the Fund by the MLP in any given taxable year. If the amount of income allocated to the Fund by an MLP exceeds the amount of cash received by the Fund from such MLP, the Fund may have difficulty making distributions to its shareholders of the amounts necessary to satisfy the distribution requirements for maintaining the Fund’s status as a regulated investment company (a “RIC”), as defined in the Code, and avoiding any income and excise taxes at the Fund level. Accordingly, the Fund may have to dispose of its portfolio investments under disadvantageous circumstances in order to generate sufficient cash to satisfy the distribution requirements for maintaining the Fund’s status as a RIC. Furthermore, if a MLP in which the Fund invests fails to qualify as a “qualified publicly traded partnership,” as defined in the Code (and is not otherwise taxed as a corporation), income generated by such MLP may not constitute “good income” and may thus jeopardize the Fund’s status as a RIC. MLPs may also be subject to state taxes in some jurisdictions. These tax risks, and any adverse determination with respect thereto, could have a negative impact on the after-tax income available for distribution by the MLPs and/or the value of the Fund’s investments in a MLP.

Foreign Securities and ADR Risk. To the extent the Fund invests in securities of foreign companies, including ADRs, your investment in the Fund is subject to foreign securities risk. These include risks relating to political, social and economic developments abroad and differences between U.S. and foreign

regulatory requirements and market practices. Securities denominated in foreign currencies are subject to the further risk that the value of the foreign currency will fall in relation to the U.S. dollar and/or will be affected by volatile currency markets or actions of U.S. and foreign governments or central banks. Furthermore, there is the risk that income earned on the Fund's investments in foreign stocks and securities could be subject to foreign withholding taxes. The Fund may invest in ADRs, which are securities representing securities of foreign issuers. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. For purposes of the Fund's investment policies, ADRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR representing ownership of common stock will be treated as common stock.

Cybersecurity Risk. With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which the Fund invests, counterparties with which the Fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers for shareholders) and other parties. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund's service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. As a result, the Fund and its shareholders could be negatively impacted.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI. Disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports to Fund shareholders and in the quarterly holdings report on Form N-Q. The annual and semi-annual reports to Fund shareholders are available by contacting the Dearborn Partners Rising Dividend Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701 or calling (888) 983-3380, or by visiting the Fund's website at www.dearbornfunds.com. The Form N-Q reports are available on the SEC's website at www.sec.gov.

Management of the Fund

The Adviser

The Fund has entered into an investment advisory agreement (“Advisory Agreement”) with Dearborn Partners, L.L.C., located at 200 West Madison Street, Suite 1950, Chicago, Illinois 60606. The Adviser is registered as an investment adviser with the SEC. Founded in 1997, the Adviser focuses on investment management for institutions and private clients, and offers domestic equity, international equity and fixed income products. As of May 31, 2018, the Adviser managed over \$3.0 billion in assets. Under the Advisory Agreement, the Adviser has overall responsibility for the general management and investment of the Fund’s portfolio, subject to the supervision of the Board of Trustees. The Fund compensates the Adviser for its services at the annual rate of 0.85% of its average daily net assets, payable on a monthly basis in arrears. For the fiscal year ended February 28, 2018, the Adviser received advisory fees in the amount of 0.85% (net of fee waivers) of the Fund’s average daily net assets.

Subject to the general supervision of the Board of Trustees, the Adviser is responsible for managing the Fund in accordance with its investment objective and policies, making decisions with respect to, and also orders for, all purchases and sales of portfolio securities. The Adviser also maintains related records for the Fund.

Fund Expenses. The Fund is responsible for its own operating expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Fund, the Adviser has agreed to waive its fees and/or reimburse expenses to ensure that the Fund’s total annual fund operating expenses (exclusive of Excluded Expenses) do not exceed an annual rate of 1.10% of the Fund’s average daily net assets through at least June 28, 2019. To the extent the Fund incurs Excluded Expenses, Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement may be greater than 1.10% of the Fund’s average daily net assets. The Adviser may request recoupment of previously waived fees and expenses paid from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. Any such reimbursement will be reviewed by the Board of Trustees. This operating expense limitation agreement may be terminated only by, or with the consent of, the Board of Trustees.

A discussion regarding the basis of the Board of Trustees’ approval of the Advisory Agreement is available in the Fund’s semi-annual report to shareholders for the period ended August 31, 2017.

The Fund, as a series of the Trust, does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment adviser with any other series of the Trust.

Portfolio Managers

Carol M. Lippman, CFA® is the Fund’s co-portfolio manager and is principally responsible for the day-to-day management of the Fund’s portfolio. Ms. Lippman is the lead portfolio manager of the Adviser’s Rising Dividend strategy, and has served as a Managing Director and Member of the Adviser since August 2011. Before joining the Adviser, Ms. Lippman was a Senior Vice President and Senior Portfolio Strategist for Well Fargo Advisors and its predecessor firms, which she joined in 1980. She was the chief strategist for that firm’s Rising Dividend strategy since 1992. Ms. Lippman earned the Chartered Financial Analyst (CFA®) designation in 1986. She is a past president and member of the Board of Governors of the St. Louis Society of Financial Analysts and a member of the CFA® Institute. She holds a Bachelor of Science degree from Northwestern University.

Michael B. Andelman is the Fund’s co-portfolio manager and is principally responsible for the day-to-day management of the Fund’s portfolio. Mr. Andelman has been a portfolio manager for the Adviser’s Rising Dividend strategy since its inception in August 2011. Mr. Andelman joined the Adviser in 2004 as a Director and Portfolio Manager and became a Member of the firm in 2010. Mr. Andelman is also a member of the Adviser’s investment committee for its Large Cap Core Equity portfolio. He holds a Bachelor of Science in Business Administration degree from Boston University.

The SAI provides additional information about each portfolio manager’s compensation, other accounts managed and ownership of the Fund’s securities.

CFA® is a registered trademark owned by the CFA Institute.

Shareholder Information

Choosing a Share Class

Below is information about the manner in which the Fund offers shares.

A financial intermediary may offer Fund shares subject to variations in or elimination of the Fund sales charges (“variations”), provided such variations are described in this Prospectus. Sales charge variations may apply to purchases, sales and conversions of Fund shares, and a shareholder transacting in Fund shares through a financial intermediary identified in Appendix A should read the terms and conditions of Appendix A carefully. A variation that is specific to a particular financial intermediary is not applicable to shares held directly with the Fund or through another financial intermediary.

The Fund offers Class A, Class C and Class I shares in this Prospectus. The different classes represent investments in the same portfolio of securities, but the classes are subject to different expenses and may have different share prices as outlined below. You should always discuss the suitability of your investment with your broker-dealer or financial adviser.

| | Class A | Class C | Class I |
|----------------------|---|---|---|
| Availability | Generally available only through financial intermediaries. | Generally available through financial intermediaries. Also available to direct investors. | Generally available to institutions such as: retirement plans such as 401(a), 401(k) or 457 plans; certain IRAs; registered investment advisers investing on behalf of clients; trustees of the Trust, former Fund trustees, employees of the Fund and Adviser and other individuals who are affiliated with the Fund; and wrap fee programs of certain broker-dealers. |
| Initial Sales Charge | Yes. Payable at time of purchase. Lower sales charges are available for larger investments. | No. Entire purchase price is invested in shares of the Fund. | No. Entire purchase price is invested in shares of the Fund. |

| | Class A | Class C | Class I |
|---------------------------------------|--|--|----------------|
| Deferred Sales Charge | Yes. Payable if you redeem within 12 months of purchase. | Yes. Payable if you redeem within 12 months of purchase. | No. |
| Distribution and Service (12b-1) Fees | 0.25% Annual Distribution and Service (12b-1) Fee. | 1.00% Annual Distribution and Service (12b-1) Fee. | No. |
| Redemption Fees | No. | No. | No. |

Class A Shares. You pay a sales charge when you invest in Class A shares of the Fund, unless you are qualifying for a reduction or waiver. There are several ways to reduce this charge. See the section “Sales Charge Reductions and Waivers” below. Class A shares are subject to lower annual expenses than Class C shares.

You do not pay a sales charge on purchases of Class A shares in amounts of \$500,000 or more, however, you may be subject to a contingent deferred sales charge (“CDSC”) of 1.00% if you redeem these shares within 12 months of purchase. In addition, there is no sales charge on subsequent Class A share purchases if the aggregate value of your Class A and Class C accounts exceeds \$500,000 and you have elected to either (1) maintain your Class C account and make subsequent investments in Class A shares, or (2) exchange (without federal income tax implications) all or a portion of your Class C shares for Class A shares and make subsequent investments in Class A shares.

Without a reduction or waiver, the price that you pay when you buy Class A shares (the “offering price”) is their net asset value (“NAV”) plus a sales charge (sometimes called a “front-end sales charge” or “load”), which varies depending upon the size of your purchase. The sales charge for Class A shares of the Fund is calculated as follows:⁽¹⁾

| Investment Amount | Sales Charge as a % of Offering Price | Sales Charge as a % of Net Amount Invested | Dealer Reallowance |
|-------------------------------------|--|---|---------------------------|
| Less than \$50,000 ⁽²⁾ | 5.00% | 5.26% | 5.00% |
| \$50,000 but less than \$100,000 | 4.50% | 4.71% | 4.50% |
| \$100,000 but less than \$250,000 | 3.50% | 3.63% | 3.50% |
| \$250,000 but less than \$500,000 | 2.50% | 2.56% | 2.50% |
| \$500,000 or more ⁽³⁾⁽⁴⁾ | 0.00% | 0.00% | 0.00% |

⁽¹⁾ The offering price is calculated to two decimal places using standard rounding criteria. As a result, the number of shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was downward or upward rounding.

⁽²⁾ The minimum initial investment for Class A shares of the Fund is \$5,000.

⁽³⁾ There is no front-end sales charge for purchases of Class A shares of \$500,000 or more. However, a CDSC of 1.00% may be applied to redemptions of Class A shares within 12 months of purchase.

⁽⁴⁾ A finder’s fee of 1.00% will be paid directly by the Adviser to the dealer on investments of \$500,000 or more.

Information about sales charges, including applicable waivers, breakpoints, and discounts to the sales charges, is fully disclosed in this Prospectus, which is available, free of charge, on the Fund’s website at www.dearbornfunds.com. The Fund believes it is very important that an investor fully consider all aspects of their investment and be able to access all relevant information in one location. Therefore, the Fund does not make the sales charge information available to investors on the website independent of the Prospectus.

Class C Shares. Class C shares of the Fund are offered for sale at NAV, without the imposition of a sales charge. Class C shareholders pay higher annual expenses than Class A and Class I shares. You do not pay a sales charge on purchases of Class C shares; however, you may be subject to a CDSC of 1.00% if you redeem these shares within 12 months of purchase.

Investors are not permitted to purchase \$500,000 or more of Class C shares as a single investment per account. There may be certain exceptions to this restriction for omnibus and other nominee accounts. In these instances, investors may want to consider the lower operating expense of Class A shares.

| Class C Contingent Deferred Sales Charges | |
|--|---------------------------|
| Months since purchase | CDSC on Shares Being Sold |
| 12 | 1.00% |
| Thereafter | 0.00% |

Class I Shares. Class I shares are offered for sale at NAV without the imposition of a sales charge, and no CDSC or redemption fee applies when you redeem your shares. Class I shares also pay lower annual expenses than Class A or C shares.

Class I shares are available to a limited type of investor, and may only be purchased by the following entities, subject to a minimum initial investment of \$500,000 and minimum subsequent investment of \$500: other mutual funds; endowments; foundations; bank trust departments or trust companies. Class I shares may also be offered, with no initial or subsequent investment minimums, to:

- retirement plans such as 401(a), 401(k) or 457 plans;
- certain IRAs if the amounts invested represent rollover distributions from investments by any of the retirement plans invested in the Fund;
- registered investment advisers investing on behalf of clients in exchange for an advisory, management or consulting fee;
- trustees of the Trust, former Fund trustees, employees of affiliates of the Fund and Adviser and other individuals who are affiliated with the Fund (this also applies to any spouse, parents, children, siblings, grandparents, grandchildren and in-laws of those mentioned) and Adviser affiliate employee benefit plans; and
- wrap fee programs of certain broker-dealers. Please consult your financial representative to determine if your wrap fee program is subject to additional or different conditions or fees.

Class A Sales Charge Reductions and Waivers

Reducing Front-End Sales Charges. There are several ways you can lower your sales charge for Class A shares. To receive a reduction in your Class A sales charge, you must let your financial institution or shareholder services representative know at the time you purchase shares that you qualify for such a reduction. You may be asked by your financial adviser or shareholder services representative to provide account statements or other information regarding your related accounts or related accounts of your immediate family members in order to verify your eligibility for a reduced sales charge. Your investment professional or financial institution must notify the Fund if your share purchase is eligible for the sales load waiver. Sales charges will not be applied to shares purchased by reinvesting distributions.

Rights of Accumulation. You may combine your current purchase of Class A shares of the Fund with other existing Class A and Class C shares currently owned for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase

is based on the total of your current purchase and the current value of all other Class A shares purchased in accounts at the public offering price and the value of the Class C shares you own at the net asset value at the financial intermediary at which you are making the current purchase. You may not aggregate shares held at different financial intermediaries. If the current purchase is made directly through the Fund's Transfer Agent, U.S. Bancorp Fund Services, LLC (the "Transfer Agent"), only those shares held directly at the Transfer Agent may apply toward the right of accumulation. You may aggregate shares that you own and that are currently owned by members of your "immediate family" including your spouse, child, stepchild, parent, stepparent, sibling, grandchild and grandparent, including in-law and adoptive relationships residing at the same address. Shares held in the name of a nominee or custodian under pension, profit sharing or employee benefit plans may not be combined with other shares to qualify for the right of accumulation. You must notify the Transfer Agent or your financial intermediary at the time of purchase in order for the right of accumulation to apply. The Fund is not liable for any difference in purchase price if you fail to notify the Transfer Agent of your intent to exercise your right of accumulation and the Fund reserves the right to modify or terminate this right at any time.

Reinstatement Privilege. If you redeem Class A shares of the Fund, and within 60 days purchase and register new Class A shares, you will not pay a sales charge on the new purchase amount. The amount eligible for this privilege may not exceed the amount of your redemption proceeds. To exercise this privilege, contact the Transfer Agent or your financial intermediary.

Letter of Intent. By signing a Letter of Intent ("LOI"), you can reduce your Class A sales charge. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period. The LOI will apply to all purchases of Class A shares. Any Class A shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date. Purchases resulting from the reinvestment of distributions do not apply toward fulfillment of the LOI. Shares equal to 5.00% of the amount of the LOI will be held in escrow during the 13-month period. If at the end of that time the total amount of purchases made is less than the amount intended, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual purchases had the LOI not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrow shares will be released to you.

Investments of \$500,000 or More. There is no initial sales charge on a lump sum Class A share purchase of \$500,000 or more, nor on any purchase into a Class A account with an accumulated value of \$500,000 or more. However, if you have taken advantage of this waiver and redeem your shares within 12 months of purchase, there is a CDSC of 1.00% imposed on such shares based on the lesser of original cost or current market value. However, the CDSC will not apply if you are otherwise entitled to a waiver of the initial sales charge as listed in "Initial Sales Charge Waivers" below. Also, the CDSC will not apply if you are entitled to a waiver as listed in "Contingent Deferred Sales Charges Waivers," below.

Financial Intermediary-Defined Sales Charge Variation Policies. A financial intermediary may impose different sales charge variations. Sales charge discount variations specific to certain financial intermediaries are described in Appendix A to this Prospectus.

Initial Sales Charge Waivers. Sales charges for Class A shares may be waived under certain circumstances for some investors or for certain purchases. You will not have to pay a sales charge on purchases of Class A shares if:

- you are an affiliate of the Adviser or any of its or the Fund’s officers, directors, trustees, employees or retirees;
- you are a registered representative of any broker-dealer authorized to sell Fund shares, subject to the internal policies and procedures of the broker-dealer;
- you are a member of the immediate family of any of the foregoing (*i.e.*, parent, child, spouse, domestic partner, sibling, step or adopted relationships, grandparent, grandchild and UTMA accounts naming qualifying persons);
- you are a fee-based registered investment adviser, financial planner, bank trust department or registered broker-dealer and are purchasing shares on behalf of your customers;
- you are purchasing shares for retirement (not including IRA accounts) and deferred compensation plans or the trusts used to fund such plans (including, but not limited to, those defined in Sections 401(k), 403(b) and 457 of the Code, and “rabbi trusts”), for which an affiliate of the Adviser acts as trustee or administrator;
- you are purchasing shares for a 401(k), 403(b) or 457 plan, and profit sharing and pension plans that invest \$500,000 or more or have more than 100 participants;
- you are a current shareholder whose aggregate investment in Class A shares of the Fund exceeds \$500,000 subject to the conditions noted above; or
- you are an individual on certain accounts under investment programs managed by the Adviser.

You may be eligible for a waiver of the initial sales charge if you purchase Class A shares through a financial intermediary firm (such as a broker-dealer, financial adviser or financial institution) that has a contractual arrangement with the Adviser or an affiliate. Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Sales charge waiver variations specific to certain financial intermediaries are described in Appendix A to this Prospectus.

To receive a reduction in your Class A sales charge, you must let your financial institution or shareholder services representative know at the time you purchase shares that you qualify for such a reduction. You may be asked by your financial adviser or shareholder services representative to provide account statements or other information regarding your related accounts or related accounts of your immediate family in order to verify your eligibility for a reduced sales charge. Your investment professional or financial institution must notify the Fund if your share purchase is eligible for the sales load waiver. Initial sales charges will not be applied to shares purchased by reinvesting distributions.

Information about sales charges, including applicable waivers, breakpoints, and discounts to the sales charges, is fully disclosed in this Prospectus, which is available, free of charge, on the Fund’s website at www.dearbornfunds.com. The Fund believes that it is very important that an investor fully consider all aspects of their investment and be able to access all relevant information in one location. Therefore, the Fund does not make all sales charge information available to investors on the website independent of the Prospectus. If you would like information about sales charge waivers, call your financial representative or contact the Fund at (888) 983-3380.

The Fund reserves the right to modify or eliminate these programs at any time.

Contingent Deferred Sales Charge Waivers. For Class A shares, a CDSC is imposed on shares purchased at the \$500,000 breakpoint (as described in “Sales Charge on Class A Shares,” above) that are redeemed within 12 months of purchase. In the case of a partial redemption, the first shares redeemed are any reinvested shares. After that, shares are always redeemed on a “first in first out” basis. If the first shares redeemed have been held for longer than 12 months from the date of purchase, then no sales charge is imposed on the redemption. The sales charge is imposed on a lot by lot basis on the market

value or initial purchase price, whichever is lower. This deferred sales charge may be waived under certain circumstances such as:

- death of the shareholder;
- divorce, where there exists a court decree that requires redemption of the shares;
- return of IRA excess contributions;
- shares redeemed by the Fund due to low balance or other reasons; and
- required minimum distributions at age 70½ (waivers apply only to amounts necessary to meet the required minimum amount based on assets held within the Fund).

A financial intermediary may impose different CDSC waivers. CDSC waiver variations specific to certain financial intermediaries are described in Appendix A to this Prospectus.

Rule 12b-1 Distribution and Shareholder Servicing Plan

The Fund has adopted a Distribution and Shareholder Servicing Plan (the “Distribution Plan”) pursuant to Rule 12b-1 under the 1940 Act. Under the Distribution Plan, the Fund is authorized to pay the Distributor a fee for the sale and distribution of the Fund’s Class A and Class C shares and services it provides to Class A and Class C shareholders. The maximum amount of the fee authorized is an annual rate of 0.25% of the Fund’s average daily net assets attributable to Class A shares annually, and 1.00% of the Fund’s average daily net assets attributable to Class C shares annually. The fees for Class C shares represent a 0.75% Rule 12b-1 distribution fee and a 0.25% shareholder servicing fee. Because these fees are paid out of the Fund’s assets attributable to Class A and Class C shares on an on-going basis, over time these fees will increase the cost of your investment in Class A and Class C shares of the Fund and may cost you more than paying other types of sales charges. Class I shares of the Fund are not subject to a Rule 12b-1 distribution fee or shareholder servicing fee.

Share Price

The price of the Fund’s shares is its NAV, plus applicable sales charges for Class A shares. The Fund’s NAV is calculated by dividing the value of the Fund’s total assets, less its liabilities, by the number of its shares outstanding. In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. The NAV is calculated at the close of regular trading of the NYSE, which is generally 4:00 p.m., Eastern time. The NAV will not be calculated on days that the NYSE is closed for trading. If the NYSE closes early, the Fund will calculate its NAV at the closing time on that day. If an emergency exists as permitted by the SEC, the NAV may be calculated at a different time.

Each equity security owned by the Fund that is listed on a national securities exchange, except portfolio securities listed on the NASDAQ Stock Market, LLC (“NASDAQ”), is valued at its last sale price on that exchange on the date as of which assets are valued. If the security is listed on more than one exchange, the Fund will use the price of the exchange that the Fund generally considers to be the principal exchange on which the security is traded.

Portfolio securities listed on NASDAQ will be valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the mean between the most recent bid and asked prices on such day or the security shall be valued at the latest sales price on the “composite market” for the day such security is being valued. The composite market is defined as a consolidation of the trade information provided by national securities and foreign exchanges and over-the-counter markets as published by an approved pricing service.

Debt securities, including short-term debt instruments having a maturity of 60 days or less, are valued at the mean in accordance with prices supplied by an approved pricing service. Pricing services may use various valuation methodologies such as the mean between the bid and the asked prices, matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. If a price is not available from a pricing service, the most recent quotation obtained from one or more broker-dealers know to follow the issue will be obtained. Quotations will be valued at the mean between the bid and the offer. Fixed income securities purchased on a delayed-delivery basis are typically marked to market daily until settlement at the forward settlement date. Any discount or premium is accreted or amortized using the constant yield method until maturity.

Money market funds, demand notes and repurchase agreements are valued at cost. If cost does not represent current market value, the securities will be priced at fair value.

Redeemable securities issued by open-end, registered investment companies are valued at the NAVs of such companies for purchase and/or redemption orders placed on that day. All exchange-traded funds are valued at the last reported sale price on the exchange on which the security is principally traded.

Foreign securities will be priced in their local currencies as of the close of their primary exchange or market or as of the time the Fund calculates its NAV, whichever is earlier. Foreign securities, currencies and other assets denominated in foreign currencies are then translated into U.S. dollars at the exchange rate of such currencies against the U.S. dollar, as provided by an approved pricing service or reporting agency. All assets denominated in foreign currencies will be converted into U.S. dollars using the applicable currency exchange rates as of the close of the NYSE, generally 4:00 p.m. Eastern Time.

If market quotations are not readily available, a security or other asset will be valued at its fair value as determined under fair value pricing procedures approved by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual fair market value. The intended effect of using fair value pricing procedures is to ensure that the Fund is accurately priced. The Board of Trustees will regularly evaluate whether the Fund's fair value pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through its application of such procedures by the Trust's valuation committee.

When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others or the value when trading resumes or realized upon its sale. Therefore, if a shareholder purchases or redeems Fund shares when the Fund holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if the Fund was using market value pricing. The Adviser anticipates that the Fund's portfolio holdings will be fair valued only if market quotations for those holdings are unavailable or considered unreliable.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time the Fund's NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Fund's NAV in advance of the time the NAV is calculated. In the event the Fund holds portfolio securities that trade in foreign markets or that are primarily listed on foreign exchanges, that trade on weekends or other days when the Fund does not

price its shares, the Fund's NAV may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

How to Purchase Shares

All purchase requests received in good order by the Transfer Agent, or by an authorized financial intermediary (an "Authorized Intermediary," as defined below) before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed at that day's NAV per share, plus any applicable sales charges. Purchase requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE (generally 4:00 p.m., Eastern time) will receive the next business day's NAV per share. An Authorized Intermediary is a financial intermediary (or its authorized designee) that has made arrangements with the Fund to receive purchase and redemption orders on its behalf. For additional information about purchasing shares through financial intermediaries, please see "Purchasing Shares Through a Financial Intermediary," below.

All account applications (each an "Account Application") to purchase Fund shares are subject to acceptance by the Fund and are not binding until so accepted. It is the policy of the Fund not to accept applications under certain circumstances or in amounts considered disadvantageous to other shareholders. Your order will not be accepted until the Fund or the Transfer Agent receives a completed Account Application. The Fund reserves the right to reject any Account Application.

The Fund reserves the right to reject any purchase order if, in the Fund's discretion, it is in the Fund's best interest to do so. For example, a purchase order may be refused if it appears so large that it would disrupt the management of the Fund. Purchases may also be rejected from persons believed to be "market-timers," as described under "Tools to Combat Frequent Transactions," below. In addition, a service fee, which is currently \$25, as well as any loss sustained by the Fund, will be deducted from a shareholder's account for any payment that is returned to the Transfer Agent unpaid. The Fund and the Transfer Agent will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

| <u>Minimum Investment Amounts</u> | <u>Class A</u> | <u>Class C</u> | <u>Class I</u> |
|--|-----------------------|-----------------------|-----------------------|
| Minimum Initial Investment | \$5,000 | \$5,000 | \$500,000 |
| Minimum Subsequent Investment | \$500 | \$500 | \$500 |
| Automatic Investment Plan | \$100 | \$100 | \$100 |

The Adviser reserves the right to waive the minimum initial investment or minimum subsequent investment amounts at its discretion. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of initial or subsequent investments.

Purchase Requests Must be Received in Good Order

Your share price will be the next calculated NAV per share, plus any applicable sales charge, after the Transfer Agent or your authorized intermediary ("Authorized Intermediary") receives your purchase request in good order. For purchases made through the Transfer Agent, "good order" means that your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- your Account Application or investment stub; and
- a check payable to "Dearborn Partners Rising Dividend Fund".

For information about your financial intermediary's requirements for purchases in good order, please contact your financial intermediary.

Purchase by Mail

To purchase Fund shares by mail, simply complete and sign the Account Application and mail it, together with your check made payable to the Fund to one of the addresses below. To make additional investments once you have opened your account, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name and your name, address, and account number on a separate piece of paper and mail it with your check made payable to the Fund to:

Regular Mail

Dearborn Partners Rising Dividend Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Dearborn Partners Rising Dividend Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices. All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

Purchase by Wire

If you are making your first investment in the Fund through a wire purchase, the Transfer Agent must have a completed Account Application before you wire funds. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire. Prior to sending the wire, please call the Transfer Agent at (888) 983-3380 to advise them of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

| | |
|-----------------|---|
| Wire to: | U.S. Bank, N.A. |
| ABA Number: | 075000022 |
| Credit: | U.S. Bancorp Fund Services, LLC |
| Account: | 112-952-137 |
| Further Credit: | Dearborn Partners Rising Dividend Fund (Shareholder Name/Account Registration) (Shareholder Account Number) |

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Fund and U.S. Bank, N.A., the Fund's custodian, are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Investing by Telephone

Telephone purchase privileges are automatically provided unless you specifically decline the option on your Account Application. If your account is open for at least 15 calendar days, you may purchase additional shares by calling the Fund toll free at (888) 983-3380. You must also have submitted a voided check or a savings deposit slip to have banking information established on your account. This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic financial institutions that are Automated Clearing House (“ACH”) members may be used for telephone transactions. If your order is received by the Transfer Agent prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the applicable price determined on the day your order is placed.

Automatic Investment Plan

For your convenience, the Fund offers an Automatic Investment Plan (“AIP”). Under the AIP, after your initial investment, you may authorize the Fund to withdraw automatically from your personal checking or savings account any amount that you wish to invest, which must be at least \$100, on a monthly, quarterly or semi-annual basis. In order to participate in the AIP, your bank must be a member of the ACH network. If you wish to enroll in the AIP, complete the appropriate section in the Account Application. The Fund may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date. A \$25 fee will be charged if your bank does not honor the AIP draft for any reason.

Purchasing Shares Through a Financial Intermediary

Investors may be charged a fee if they effect transactions through a financial intermediary. If you are purchasing shares through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and wiring payment to the Transfer Agent. Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial intermediaries placing orders for themselves or on behalf of their customers should call the Fund toll free at (888) 983-3380, or follow the instructions listed in the sections above entitled “Investing by Telephone,” “Purchase by Mail” and “Purchase by Wire.”

If you place an order for the Fund’s shares through a financial intermediary in accordance with such financial intermediary’s procedures, and such financial intermediary then transmits your order to the Transfer Agent in accordance with the Transfer Agent’s instructions, your purchase will be processed at the next calculated NAV, plus any applicable sales charges, after the Transfer Agent receives your order. The financial intermediary must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent’s procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial intermediary will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with the Fund, orders will be processed at the applicable price next calculated after receipt by the Authorized Intermediary (or its authorized designee), consistent with applicable laws and regulations. An order is deemed to be received when a Fund or an Authorized Intermediary accepts the order. Authorized Intermediaries may be authorized to designate other intermediaries to receive purchase and redemption requests on behalf of the Fund.

For more information about your financial intermediary’s rules and procedures, and whether your financial intermediary is an Authorized Intermediary, you should contact your financial intermediary directly.

Anti-Money Laundering Program

The Trust has established an Anti-Money Laundering Compliance Program as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”) and related anti-money laundering laws and regulations. To ensure compliance with these laws, the Account Application asks for, among other things, the following information for all “customers” seeking to open an “account” (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (a P.O. Box number alone is not acceptable).

If you are opening an account in the name of a legal entity (*e.g.*, a partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners of the legal entity. Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts, will require additional documentation.

If any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to the true identity of a customer. If you require additional assistance when completing your application, please contact the Transfer Agent at (888) 983-3380.

How to Redeem Shares

Orders to sell or “redeem” shares may be placed directly with the Fund or through a financial intermediary. If you originally purchased your shares through a financial intermediary, including an Authorized Intermediary, your redemption order must be placed with the same financial intermediary in accordance with the procedures established by that financial intermediary. Your financial intermediary is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. You may redeem Fund shares on any business day that the Fund calculates its NAV. To redeem shares directly with the Fund, you must contact the Fund either by mail or by phone to place a redemption request. Your redemption request must be received in good order (as discussed under “Payment of Redemption Proceeds,” below) prior to the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) by the Transfer Agent or by an Authorized Intermediary. Redemption requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE will be treated as though received on the next business day.

Shareholders who hold their shares through an IRA or other retirement account must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRA accounts may not be redeemed by telephone.

Payment of Redemption Proceeds

You may redeem your Fund shares at the NAV per share next determined after the Transfer Agent or your Authorized Intermediary (or its authorized designee) receives your redemption request in good order (less any applicable deferred sales charges). Your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds with respect to all requests received by the Fund in good order before the

close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) will usually be sent one to three business days following the receipt of your redemption request.

A redemption request made through the Transfer Agent will be deemed in “good order” if it includes:

- the shareholder’s name;
- the name of the Fund and share class you are redeeming shares from;
- the account number;
- the share or dollar amount to be redeemed; and
- signatures by all shareholders on the account and signature guarantee(s), if applicable.

The Fund reserves the right to change the requirements of “good order.” Shareholders will be given advance notice if the requirements of “good order” change. For information about your financial intermediary’s requirements for redemption requests in good order, please contact your financial intermediary.

You may receive proceeds (less any applicable deferred sales charges) of your sale in a check sent to the address of record, electronically via the ACH network using the previously established bank instructions or federal wire transfer to your pre-established bank account. The Fund typically expects that it will take one to three days following the receipt of your redemption request to pay out redemption proceeds, regardless of whether the redemption proceeds are paid by check, ACH transfer or wire. Please note that wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH; however, funds are typically credited to your bank within two to three days after redemption. In all cases, proceeds will be processed within seven calendar days after the Fund receives your redemption request.

The Fund typically expects it will hold cash or cash equivalents to meet redemption requests. The Fund may also use the proceeds from the sale of portfolio securities to meet redemption requests if consistent with the management of the Fund. These redemption methods will be used regularly under normal market conditions and during periods of stressed market conditions.

Redemption in-Kind. The Fund generally pays redemption proceeds in cash. However, the Trust, on behalf of the Fund, has filed a notice of election under Rule 18f-1 under the Investment Company Act of 1940, as amended (the “1940 Act”), under which the Trust, on behalf of the Fund, has reserved the right for a Fund to redeem in-kind under certain circumstances, meaning that redemption proceeds are paid in liquid securities with a market value equal to the redemption price. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges when converting securities to cash. These securities redeemed in-kind remain subject to general market risks until sold. For federal income tax purposes, redemptions in-kind are taxed in the same manner as redemptions made in cash. Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund’s net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind may also be used during periods of stressed market conditions. The Fund has in place a line of credit that may be used to meet redemption requests during periods of stressed market conditions.

Redemption in-kind proceeds are limited to securities that are traded on a public securities market or for which quoted bid prices are available. In the unlikely event that the Fund does redeem shares in-kind, the procedures utilized by the Fund to determine the securities to be distributed to redeeming shareholders will generally be representative of a shareholder’s interest in the Fund’s portfolio securities. However, the Fund may also redeem in-kind using individual securities as circumstances dictate.

If the Transfer Agent has not yet collected payment for recently purchased shares that you are selling, it may delay sending the proceeds until the payment is collected, which may take up to 12 calendar days from the purchase date. Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets; or (3) for such other periods as the SEC may permit for the protection of shareholders. Your ability to redeem shares online or by telephone will be delayed or restricted for 15 calendar days after you change your address. You may change your address at any time by telephone or written request, addressed to the Transfer Agent. Confirmations of an address change will be sent to both your old and new address. Redemption proceeds will be sent to the address of record. The Fund is not responsible for interest lost on redemption amounts due to lost or misdirected mail.

Signature Guarantees

The Transfer Agent may require a signature guarantee for certain redemption requests. Signature guarantees can be obtained from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”), but not from a notary public. A signature guarantee, from either a Medallion program member or a non-Medallion program member, of each owner is required in the following situations:

- if ownership is being changed on your account;
- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- when a redemption request is received by the Transfer Agent and the account address has changed within the last 15 calendar days; and
- for all redemptions in excess of \$50,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and the Transfer Agent reserve the right to require a signature guarantee or other acceptable signature verification in other instances based on the circumstances relative to the particular situation.

Redemption by Mail

You can execute most redemptions by furnishing an unconditional written request to the Fund to redeem your shares at the current NAV per share. Redemption requests in writing should be sent to the Transfer Agent at:

Regular Mail

Dearborn Partners Rising Dividend Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Dearborn Partners Rising Dividend Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Telephone Redemption

Telephone redemption privileges are automatically provided unless you specifically decline the option on your Account Application. You may redeem shares, in amounts of \$50,000 or less, by instructing the Fund by telephone at (888) 983-3380. A signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial intermediary source may be required of all shareholders in order to qualify for or to change telephone redemption privileges on an existing account. Telephone redemptions will not be made if you have notified the Transfer Agent of a change of address within 15 calendar days before the redemption request. Once a telephone transaction has been placed, it may not be cancelled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time). If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. If you hold your shares through a retirement account, you may not redeem shares by telephone.

Wire Redemption

Wire transfers may be arranged to redeem shares. The Transfer Agent charges a service fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades. The fee will be deducted from your remaining account balance on dollar specific redemptions. There is no charge to have proceeds sent via ACH.

Systematic Withdrawal Program

The Fund offers a systematic withdrawal program ("SWP") whereby shareholders or their representatives may request a redemption in a specific dollar amount be sent to them each month, calendar quarter, semi-annually or annually. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start this program, your account must have Fund shares with a value of at least \$10,000, and the minimum payment amount is \$100. This program may be terminated or modified by the Fund at any time. Any request to change or terminate your SWP should be communicated in writing or by telephone to the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves redemption of Fund shares, and may result in a taxable capital gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the amounts credited to your account, the account ultimately may be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call (888) 983-3380 for additional information regarding the SWP.

The Fund's Right to Redeem an Account

The Fund reserves the right to redeem the shares of any shareholder whose account balance is less than \$2,500, other than as a result of a decline in the NAV of the Fund or for market reasons. The Fund will provide a shareholder with written notice 30 calendar days prior to redeeming the shareholder's account. A redemption by the Fund may result in a taxable capital gain or loss for federal income tax purposes.

Converting Shares

Converting Shares. Subject to meeting the minimum investment amount for Class I shares, investors currently holding Class A or Class C shares may convert to Class I shares without incurring deferred sales charges. A share conversion within the same Fund will not result in a capital gain or loss for federal income tax purposes.

Call the Fund (toll-free) at (888) 983-3380 to learn more about conversions of Fund shares.

Tools to Combat Frequent Transactions

The Fund is intended for long-term investors. Short-term “market-timers” who engage in frequent purchases and redemptions may disrupt the Fund’s investment program and create additional transaction costs that are borne by all of the Fund’s shareholders. The Board of Trustees has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps include, among other things, monitoring trading activity and using fair value pricing. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund seeks to exercise its judgment in implementing these tools to the best of its abilities in a manner that it believes is consistent with shareholder interests. Except as noted herein, the Fund applies all restrictions uniformly in all applicable cases.

Monitoring Trading Practices. The Fund monitors selected trades in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, the Fund believes that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder’s accounts. In making such judgments, the Fund seeks to act in a manner that it believes is consistent with the best interests of its shareholders. The Fund uses a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Fund in its sole discretion. To minimize harm to the Fund and its shareholders, the Fund reserves the right to reject any purchase order (but not a redemption request), in whole or in part, for any reason and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund’s efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through Authorized Intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with Authorized Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with Authorized Intermediaries pursuant to which these intermediaries are required to provide to the Fund, at the Fund’s request, certain information relating to their customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Authorized Intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund’s policies. However, the Fund cannot guarantee the accuracy of the information provided to it from Authorized Intermediaries and cannot ensure that they will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Fund’s ability to monitor and discourage abusive trading practices in non-disclosed and omnibus accounts may be limited.

Fair Value Pricing. The Fund employs fair value pricing selectively to ensure greater accuracy in its daily NAVs and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board of Trustees has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Fund’s pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Adviser, does not represent the

security's fair value), or when, in the judgment of the Adviser, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board of Trustees. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV per share. More detailed information regarding fair value pricing can be found in this Prospectus under the heading entitled "Share Price."

Other Fund Policies

Telephone Transactions. You automatically have the ability to make telephone purchases and redemptions, and you may be responsible for any fraudulent telephone orders as long as the Fund has taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time).

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail the requests to the Fund at the address listed previously in the "How to Purchase Shares" section. Neither the Fund nor the Transfer Agent are liable for any loss incurred due to failure to complete a telephone transaction prior to market close.

Telephone trades must be received by or prior to the close of the NYSE (generally 4:00 p.m., Eastern time). During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to the close of the NYSE. The Fund is not responsible for delays due to communications or transmission outages, subject to applicable law.

Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine, subject to applicable law. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting:

- that you correctly state your Fund account number;
- the name in which your account is registered; or
- the Social Security or taxpayer identification number under which the account is registered.

All telephone calls are recorded for your protection. Written confirmation will be provided for all purchase and redemption transactions initiated by telephone.

Policies of Other Financial Intermediaries. An Authorized Intermediary or its designee may establish policies that differ from those of the Fund. For example, the institution may charge transaction fees, set higher minimum investments or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Please contact your Authorized Intermediary for details.

Closure of the Fund. The Adviser retains the right to close the Fund (or partially close the Fund) to new purchases if it is determined to be in the best interest of shareholders. Based on market and Fund conditions, the Adviser may decide to close the Fund to new investors, all investors or certain classes of investors (such as fund supermarkets) at any time. If the Fund is closed to new purchases it will continue to honor redemption requests, unless the right to redeem shares has been temporarily suspended as permitted by federal law.

Householding. In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses and annual and semi-annual reports you receive by sending only one copy of each to those

addresses shared by two or more accounts and to shareholders the Fund reasonably believes are from the same family or household. If you would like to discontinue householding for your accounts, please call toll-free at (888) 983-3380 to request individual copies of these documents. Once the Fund receives notice to stop householding, the Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

Lost Shareholders, Inactive Accounts and Unclaimed Property. It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at (888) 983-3380 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

IRA Accounts. IRA accounts will be charged a \$15.00 annual maintenance fee.

Distribution of Fund Shares

The Distributor

The Trust has entered into a Distribution Agreement (the "Distribution Agreement") with Quasar Distributors, LLC (the "Distributor"), located at 777 East Wisconsin Avenue, 6th Floor, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as the Fund's principal underwriter, provides certain administration services and promotes and arranges for the sale of the Fund's shares. The offering of the Fund's shares is continuous, and the Distributor distributes the Fund's shares on a best efforts basis. The Distributor is not obligated to sell any certain number of shares of the Fund. The Distributor and the Fund's administrator and custodian are affiliated companies. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc.

Payments to Financial Intermediaries

The Fund may pay fees to intermediaries, such as banks, broker-dealers, financial advisors or other financial institutions, including affiliates of the Adviser, for recordkeeping, sub-administration, sub-accounting, sub-transfer agency and other shareholder services (collectively, "sub-TA services") associated with shareholders whose shares are held of record in omnibus and networked accounts, retirement plans, other group accounts or accounts traded through registered securities clearing agents in lieu of the transfer agent providing such services.

The Adviser, out of its own resources and legitimate profits and without additional cost to the Fund or its shareholders, may provide additional cash payments to certain intermediaries. These payments, sometimes referred to as revenue sharing, are in addition to Rule 12b-1 fees and sub-TA fees paid by the Fund, if any. Revenue sharing payments may be made to intermediaries for sub-TA services or distribution-related services, such as marketing support; access to third party platforms; access to sales meetings, sales representatives and management representatives of the intermediary; inclusion of the Fund on a sales list, including a preferred or select sales list, and in other sales programs. The Adviser may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold. From time to time, and in accordance with applicable rules and regulations, the Adviser may also provide non-cash compensation to representatives of various intermediaries who sell Fund shares or provide services to Fund shareholders.

Distributions and Taxes

Distributions

The Fund will make distributions of net investment income and net capital gain, if any, at least annually, and as frequently as quarterly. Annual distributions will typically be made during the month of December. The Fund may make additional distributions if deemed to be desirable at another time during the year.

All distributions will be reinvested in additional Fund shares unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write or call the Transfer Agent in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then-current NAV per share and to reinvest all subsequent distributions.

Federal Income Tax Consequences

Changes in income tax laws, potentially with retroactive effect, could impact the Fund's investments or the tax consequences to you of investing in the Fund. Some of the changes could affect the timing, amount and tax treatment of Fund distributions made to shareholders. Please consult your tax advisor before investing.

Distributions of the Fund's investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gain and net gain from foreign currency transactions), if any, are generally taxable to the Fund's shareholders as ordinary income. For a non-corporate shareholder, to the extent that the Fund's distributions of investment company taxable income are attributable to and reported as "qualified dividend" income, such income may be subject to tax at the reduced federal income tax rates applicable to long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of the Fund's distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to its shares. To the extent that the Fund's distributions of investment company taxable income are

attributable to net short-term capital gain, such distributions will be treated as ordinary income and cannot be offset by a shareholder's capital losses from other investments.

Distributions of the Fund's net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referred to in the previous paragraph.

You will be taxed in the same manner whether you receive your distributions (whether of investment company taxable income or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a net investment income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) a taxpayer's investment income, net of deductions properly allocable to such income, or (ii) the amount by which such taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals, and \$125,000 for married individuals filing separately). The Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders that sell or redeem shares generally will have a capital gain or loss from the sale or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale or redemption (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year and, if held for one year or less, as a short-term capital gain or loss. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares (through reinvestment of distributions or otherwise) within 30 days before or after selling or redeeming other Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

The Fund is required to report to certain shareholders and the IRS the cost basis of Fund shares acquired on or after January 1, 2012 when those shareholders subsequently sell or redeem those shares. The Fund will determine cost basis using the average cost method unless you elect in writing any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions made by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

Financial Highlights

The following financial highlights table shows the Fund's financial performance information for the period from April 10, 2013 (commencement of operations) to February 28, 2014 and for the fiscal years ended February 28, 2015, February 29, 2016, February 28, 2017 and February 28, 2018. Certain information reflects financial results for a single share of the Fund. The total return in the table represents the rate that you would have earned or lost on an investment in the Fund (assuming you reinvested all distributions). This information has been audited by Cohen & Company, Ltd., the independent registered public accounting firm of the Fund, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report to Shareholders, which is available upon request.

Class A Shares

Per Share Data for a Share Outstanding Throughout Each Period

| | Year Ended | | | | Period |
|--|----------------------|----------------------|----------------------|----------------------|-------------------------------------|
| | February 28, 2018 | February 28, 2017 | February 29, 2016 | February 28, 2015 | February 28, 2014 ⁽¹⁾ |
| Net Asset Value, Beginning of Period | <u>\$13.27</u> | <u>\$11.44</u> | <u>\$12.38</u> | <u>\$10.87</u> | <u>\$10.00</u> |
| Income from investment operations: | | | | | |
| Net investment income ⁽²⁾ | 0.16 | 0.15 | 0.16 | 0.20 | 0.11 |
| Net realized and unrealized gain (loss) on investments | <u>0.87</u> | <u>1.79</u> | <u>(0.95)</u> | <u>1.50</u> | <u>0.81</u> |
| Total from investment operations | <u>1.03</u> | <u>1.94</u> | <u>(0.79)</u> | <u>1.70</u> | <u>0.92</u> |
| Less distributions paid: | | | | | |
| From net investment income | <u>(0.21)</u> | <u>(0.11)</u> | <u>(0.15)</u> | <u>(0.19)</u> | <u>(0.05)</u> |
| Total distributions paid | <u>(0.21)</u> | <u>(0.11)</u> | <u>(0.15)</u> | <u>(0.19)</u> | <u>(0.05)</u> |
| Net Asset Value, End of Period | <u>\$14.09</u> | <u>\$13.27</u> | <u>\$11.44</u> | <u>\$12.38</u> | <u>\$10.87</u> |
| Total Return⁽³⁾⁽⁴⁾ | 7.85% | 17.02% | (6.41)% | 15.74% | 9.25% |
| Supplemental Data and Ratios: | | | | | |
| Net assets, end of period (000's) | \$69,227 | \$70,449 | \$60,633 | \$52,691 | \$18,051 |
| Ratio of expenses to average net assets: | | | | | |
| Before waivers and reimbursements of expenses ⁽⁵⁾ | 1.36% | 1.37% | 1.40% | 1.49% | 2.11% |
| After waivers and reimbursements of expenses ⁽⁵⁾ | 1.36% ⁽⁶⁾ | 1.40% | 1.43% | 1.50% | 1.50% |
| Ratio of net investment income to average net assets: | | | | | |
| Before waivers and reimbursements of expenses ⁽⁵⁾ | 1.13% | 1.25% | 1.33% | 1.73% | 0.62% |
| After waivers and reimbursements of expenses ⁽⁵⁾ | 1.13% ⁽⁶⁾ | 1.22% | 1.30% | 1.72% | 1.23% |
| Portfolio turnover rate ⁽⁴⁾ | 12.05% | 5.07% | 18.19% | 9.76% | 13.41% |

(1) The Fund commenced operations on April 10, 2013.

(2) Per share net investment income was calculated using average shares outstanding.

(3) Total return in the table represents the rate that the investor would have earned or lost on an investment in the Fund, assuming reinvestment of dividends. Excludes the effect of applicable sales charges.

(4) Not annualized for periods less than one year.

(5) Annualized for periods less than one year.

(6) Effective May 1, 2017, the expense cap for Class A shares was decreased from 1.40% to 1.10% excluding Rule 12b-1 fees of 0.25%.

Class C Shares

Per Share Data for a Share Outstanding Throughout Each Period

PRIVACY NOTICE

The Fund collects non-public personal information about you from the following sources:

- information the Fund receives about you on applications or other forms;
- information you give the Fund orally; and/or
- information about your transactions with the Fund or others.

The Fund does not disclose any non-public personal information about its shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. The Fund may share information with affiliated parties and unaffiliated third parties with whom it has contracts for servicing the Fund. The Fund will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your non-public personal information and requires third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.

APPENDIX A

Financial Intermediary-Defined Sales Charge Variation Policies

Effective March 1, 2019, shareholders purchasing Fund shares through a Raymond James platform or account will be eligible only for the following sales charge waivers (front-end sales charge waivers and contingent deferred sales charge (“CDSC”) waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s prospectus or SAI.

Initial Sales Charge Waivers on Class A Shares Available at Raymond James

Shares purchased in an investment advisory program.

Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).

Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.

Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).

An investor in the Fund’s Class C shares will have their shares converted at net asset value to Class A Shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of Raymond James.

CDSC Waivers on Class A and Class C Shares Available at Raymond James

Death or disability of the shareholder

Shares sold as part of a systematic withdrawal plan as described in the Fund’s Prospectus

Return of excess contributions from an IRA Account

Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½ as described in the Fund’s Prospectus

Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James

Shares acquired through a right of reinstatement

Initial Sales Charge Discounts Available at Raymond James

Breakpoints as described in this Prospectus

Rights of Accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser’s household at Raymond James. Eligible Fund family assets not held at Raymond James may be included in the rights of accumulation calculation only if the shareholder notifies his or her financial advisor about such assets
